Workforce Management Technology

Smart Staffing, Simplified. Utilised extensively by healthcare facilities across the United States, Imperial is an all-in-one Vendor Management System (VMS). While originally designed to meet the complex needs of healthcare, its flexible and intuitive platform is suitable for bringing together agency, contract, casual, and permanent staffing into a single, cloud-based solution with complete visibility, compliance tracking, and control.

Key Stats:

- Up to 40% reduction in time-to-fill
- Real-time reporting powered by Tableau
- Deployed across multiple regions with 99% uptime

Key Features:

- Real-time compliance tracking
- Custom dashboards & live analytics
- Integrated scheduling & job requests
- Workflow automation & credential alerts

Why It Matters:

- Reduces admin burden & risk
- Cost savings through control and transparency
- Centralises compliance
- Ensures audit-ready documentation
- Centralises workforce decisions
